The provisions under this section of the regulations shall relate exclusively to lands in the Upper Columbia Division.

(a.) CLASSIFICATION OF LANDS.

1. Dominion lands in this Division shall be classified as Flooded land, Bench land, and Upland.

2. *Flooded land* is land which at ordinary high water is covered to such an extent as to render it unsuited to the cultivation of grain or root crops.

3. *Bench land* is land which is not ordinarily affected by high water, and not more than one thousand (1,000) feet above the Columbia River, and shall be deemed to include bottom land which is not classed as *Flooded land*, as above defined.

4. *Upland* is land which is over one thousand (1,000) feet above the Columbia River.

5. *Proviso.* A legal subdivision (or fraction thereof) of bottom land shall be classified as *Flooded land* if more than one-half of its area is Flooded land.

A legal subdivision (or fraction thereof) shall be classed as *Upland* if more than one-half of its area is *Upland*.

6. Classification of lands as *Flooded land*, *Bench land*, or *Uplands* shall be made by officers of the Department of the Interior after examination of the lands.

(b.) FLOODED LANDS.

1. *Flooded land* may be set apart and reserved for the purpose of the disposal of the hay thereon under permit.

2. *Flooded land* not so reserved may be disposed of only under lease to actual settlers in the vicinity in areas not exceeding one legal subdivision of forty acres for a term of ten years. The lease shall be cancellable at any time during that period after two years' notice and shall not be transferred or assigned. A yearly rental shall be charged of fifty cents per acre, payable in advance.

(c.) BENCH LAND.

Homesteads.

1. *Bench land* may be disposed of under homestead entry in areas not exceeding one legal subdivision of forty acres, more or less, on payment of the prescribed entry fee of ten dollars and

subject to the provisions hereinafter contained respecting "Homestead Right," "Entry," "Patent," or otherwise.

2. *Residence Duties.*—The homesteader shall be required to reside for at least six months in each of five years in a house on the homestead. The house must be worth at least three hundred dollars at the time of application for patent for the homestead.

3. *Cultivation.*—Cultivation duties shall be required during each of five years and the homesteader shall have a total of at least fifteen acres of the homestead cleared and a total of nine acres of same cultivated and enclosed within substantial fencing before patent for the homestead shall be issued. A reasonable proportion of the cultivation duties shall be done each year; the following shall be accepted as satisfactory:—

At least three acres of slashing, clearing, or breaking to be done during the first year and an additional three acres of slashing, clearing, or breaking during each of the succeeding four years; at least three acres to be cultivated during the third year, six acres during the fourth year, and nine acres during the fifth year.

(d.) *Pre-emptions.*

3. *Duties.*—A settler holding a pre-emption entry shall perform the duties upon his homestead and shall, in addition to the clearing and cultivation required by these regulations on the homestead, have a total of at least fifteen acres cleared, either on the homestead or pre-emption, and a total of nine acres of same cultivated and enclosed within substantial fencing before patent shall be issued. A reasonable proportion of such cultivation duties shall be required during each year, and shall be at the same rate as is required in connection with the homestead.

4. On or after the completion of duties for the homestead, patent for the attached pre-emption may issue so soon as the entrant has cleared and cultivated the total area required in connection with the pre-emption, in which case payment of the balance of the purchase money may thereupon be made in full.

5. A settler holding both a homestead and pre-emption shall not obtain patent for his homestead after the completion of the duties therefor until he also becomes entitled to patent for his pre-emption.

6. If an entry for a pre-emption is abandoned, or is cancelled for default in duties or for any other reason, any moneys which may have been paid on account thereof shall not be refunded. A pre-emption entry shall be cancelled if for any reason the homestead entry to which it is attached is cancelled.

(e.) *Conditional Purchase.*

(b.) Homestead Right.

Except as otherwise provided, any male person who makes application in the manner hereinafter provided shall, subject to the provisions of subsection (a) of this section, be eligible to obtain entry for a homestead, (1st) who has attained the full age of eighteen years, and (2nd) who is a British subject, or declares his intention of becoming a British subject, and (3rd) who is not holding an entry for Dominion lands in the railway belt or elsewhere for which patent has not been approved by the Department.

(d.) Conditional Purchase Right.

Except as otherwise provided, any male person who makes application in the manner hereinafter provided shall, subject to the provisions of subsection (a) of this section, be eligible to obtain entry for a Conditional Purchase, (1st) who has attained the full age of eighteen years, and (2nd) who is a British subject, or declares his intention of becoming a British subject, and (3rd) who is not holding an entry for Dominion lands in the railway belt or elsewhere for which patent has not been approved by the Department.

LANDS OPEN TO ENTRY.

Section 12.—(a.) All surveyed agricultural Dominion lands within the railway belt not reserved or withheld from entry and not disposed of or occupied are open to entry under the provisions of these regulations.

For the purpose of this section "surveyed" land means:—

(1.) In the Kamloops Division, *quarter sections* which abut on a surveyed line:

(2.) In the Lower Columbia Division, "surveyed" land means *legal subdivisions* which abut on a surveyed line:

(3.) In the Upper Columbia Division, Shuswap Division, and Coast Division, "surveyed" land means *legal subdivisions* of Flooded land and Bench land or *quarter sections* of Upland which abut on a surveyed line:

(4.) A surveyed line means a line the survey of which has been approved by the Surveyor-General.

(b.) When an Agent is notified by the Department that certain lands have been surveyed and made available for entry, or when unoccupied lands which have been held under lease or have been in a timber berth are made available for entry, it shall be his duty to post notice to this effect in his office available for public inspection giving at least thirty clear days' notice of the date on which the land will be open for entry, and also forthwith to advertise the date of opening in at least one newspaper at the place in which the land office is situated, and in a newspaper in the division in which the lands are situated.

(c.) TIMBER LANDS.

1. Land in a timber berth shall not be open to entry.

2. Land containing not more than eighty thousand (80,000) feet of merchantable timber, board measure, to the legal subdivision, or at the rate of two thousand (2,000) feet to the acre, shall, if otherwise available, be open to entry, and the entrant shall not be required to pay dues thereon.

3. Land containing merchantable timber at the rate of from two thousand (2,000) to five thousand (5,000) feet, board measure, to the acre shall, if otherwise available, and subject to the approval of the Department, be open to entry, but such entry shall be subject to the condition that after inspection by a timber inspector dues will be charged the entrant on the Inspector's estimate of the amount of merchantable timber in excess of two thousand (2,000) feet, board measure, to the acre, which shall be paid before patent for the land shall be issued. Prior to issue of patent the excess shall only be removed on payment of dues and by application to the Crown Timber Agent. Dues shall be charged at the same rate as for timber cut under licence. If entry for land of this class is secured without the above condition being imposed, it shall be liable to cancellation, but the Department may permit the entry to stand subject to the above condition.

4. Land containing more than five thousand (5,000) feet of merchantable timber, board measure, to the acre shall not be open to entry, and if entry is secured therefor it will be liable to cancellation.

5. Merchantable timber means all timber (except poplar) over ten inches at the butt.

6. Timber on land entered for shall become the property of an entrant only when he obtains patent for the land, and no entrant for Dominion lands shall, until after the issue of patent therefor, have the right to sell or dispose of any timber on the land entered for without having previously obtained authority to do so from a Crown Timber Agent. Violation of this provision shall render the entry liable to cancellation.

7. Notwithstanding anything herein contained, the timber on a homestead entered for previous to these regulations shall become the property of the homesteader when he obtains patent for the homestead unless it was previously granted under licence or permit, but before issue of the patent he shall not sell or dispose of any such timber without having first obtained authority to do so from a Crown Timber Agent, and if he desires to cut and sell or dispose of timber on the homestead, outside of the tract he is clearing for cultivation purposes, he shall first obtain a permit from the Crown Timber Agent by payment of the same dues as are charged to licensees of timber berths, and when he obtains patent the Minister may refund to him the due so collected.

(d.) RESERVATION OF LANDS.

The Minister may set aside and reserve from entry or from sale as agricultural lands or other disposition any lands which are considered to be unsuited for cultivation without the aid of irrigation or to be required in connection with any system of irrigation, or any marsh lands, or lands suitable for grazing but not adapted to agriculture, or lands valuable for timber, or lands valuable on account of the hay, quarriable stone, gravel, sand, salt, petroleum, natural gas, coal, gold, silver, copper, iron, or other minerals thereon or therein, or for the protection of ponds, lakes, or other water supplies, or for the purposes of a water-power, harbour, landing, or townsite, or for any other cause deemed good and sufficient, and the Minister may, at any time, on being satisfied that there is no longer reason for continuing the reservation of any lands so reserved, after due notice given, remove the reservation and declare the land open to entry or otherwise.

ENTRY AND APPLICATION THEREFOR.

Section 13.—(a.) Any person eligible as heretofore provided, desiring to obtain a homestead, pre-emption, or conditional purchase, shall make application for an entry therefor in the *Form A* of the schedule hereto at the land office of the district in which the land is situated, within such hours as are from time to time fixed by the Governor in

Council, and shall make in support of such application affidavit in the *Form B*. An entry fee of \$10 shall be payable with the application, and the local agent or officer acting for him shall deal with the application in order of its receipt. The Minister shall cause such instructions to be given to agents and sub-agents as will insure the dealing with applicants and applications in proper consecutive order, and for their guidance on occasions of rush for entries.

(b.) When application is made as above for land then open to entry, the local agent or officer acting for him shall accept it upon payment of the said fee, and shall give the applicant a receipt therefor in the *Form C*; and the acceptance by the local agent or officer acting for him of the said application and of the fee and the issue of the said receipt shall constitute entry.

(c.) The receipt given to the applicant in the *Form C*, as above provided, shall be a certificate of entry, and shall entitle the entrant to take, occupy, use, and cultivate the land entered for, and to hold possession thereof to the exclusion of any other person, and to bring and maintain actions for trespass committed on the said land; and the land shall not be liable to be taken in execution before the issue of letters patent therefor; but occupancy, use, and possession of land so entered for shall be subject, nevertheless, to the provisions of these or of any other regulations or of any Act affecting it.

(d.) Application may also be made in the same form and within the same hours at the office of a sub-agent in a district in which the land is situated, who shall give a provisional receipt in the *Form D*, subject to acceptance by the local agent, and shall forthwith forward the application and fee to the local agent; but this application shall have no force or effect until it is received and accepted by the local agent or officer acting for him, who shall deal with it in order of its receipt and in its proper turn, as if it were made direct, and his acceptance of such application and fee and the issue of his receipt in the *Form C* shall, as aforesaid, constitute entry; and such receipt in the *Form C* shall, as aforesaid, be the certificate of entry and shall convey the same rights as if the application were made direct.

Provided, however, that, at the request and expense of the applicant, the sub-agent shall by telegraph advise the local agent or the officer acting for him of the receipt of the application; and the local agent or the officer acting for him shall record and deal with the advice in its proper turn in the order of its receipt, and shall, if the applicant has provided for its being done at his own expense, acknowledge the advice by telegraph; and if the land applied for is available shall hold the same for the applicant during a period of time sufficient to admit of his receiving the application; and the application, if received within that period, shall be regarded as received at the time of the receipt of the advice.

Provided further that when a sub-agent has taken an application for entry, he shall not take another application for that parcel of land from any other person until he has been duly advised that the first application has been dealt with by the local agent.

(e.) Every application for entry shall be made by the applicant appearing in person at the office of the local agent or sub-agent, as the case may be. Application shall not be made by proxy.

(f.) No entry granted for lands subject to these regulations shall convey any right to salt, coal, petroleum, natural gas, gold, silver, copper, iron, or other minerals within, on, or under the land covered by the entry, or any exclusive or other property or interest in, or any exclusive right or privilege with respect to any lake, river, spring, stream, or other body of water within or bordering on or passing through the land covered by the entry.

(g.) Entry for a quarter section, legal subdivision, or other parcel of land which is divided by a river, lake, arm, or large stream shall not be granted to any single applicant on both sides thereof, unless otherwise determined at the dis-

cretion of the Minister, nor except in the Kamloops Division shall any one person be permitted to make entry for more than one legal subdivision of bench land fronting on a river, lake, arm, or large stream, unless otherwise determined at the discretion of the Minister.

(h.) Every entry shall be subject to the provisions contained in these regulations respecting public roads, highways, or trails.

(i.) An entry granted for lands subject to these regulations is for the sole use and benefit of the entrant, and neither directly nor indirectly for the use or benefit of any other person or persons whatsoever, and the violation of this provision shall render the entry liable to cancellation.

(j.) An application for entry shall not be accepted from any person who is employed in a Dominion Land agency or sub-agency, or as a Homestead Inspector or a Timber Inspector during the continuance of the term of employment.

(k.) An application for entry shall declare what improvements, if any, there are on the land for which he applies, and the full amount of the value of improvements other than his own shall be payable by the applicant at the time of application; and should he fail to make such declaration his entry shall be liable to cancellation. The local agent may in his discretion order a valuation of the improvements by a homestead inspector and the entrant shall be required to pay at once any deficiency; should he fail to do so the entry may be cancelled. Upon payment being made of the value of improvements as aforesaid the Minister may cause the same to be paid to the former entrant or occupant of the land in whole or part.

(l.) An applicant for entry shall declare that the total quantity of merchantable timber on the land applied for is not greater than at the rate of five thousand feet, board measure, to the acre.

(m.) An applicant for entry shall declare whether he has previously obtained an entry for Dominion lands in the railway belt, and if the same was cancelled by abandonment or for non-fulfilment of duties, he shall, before making application, produce authority from the Department permitting him to make another entry.

(n.) The Minister shall have power to settle in such manner as he deems best all disputes which arise between persons claiming the right to entry for the same land, and if it is decided that the land may be entered for may cause such a division thereof to be made as shall, as far as practicable, preserve his improvements to each of the parties to the dispute, and may in his discretion cause any deficiency in area resulting therefrom to be made up to the disputants from other available land, or may grant to one of the disputants land elsewhere on special terms or conditions.

(o.) An application or inquiry made either in person or in writing for vacant land not then available, or land under reservation or in a timber berth or under lease, or land unavailable for any reason, shall not give the applicant any prior right with respect to such land if the same should become available.

(p.) The occupation of any Dominion land by squatting thereon without entry as herein provided or without the authority of the Minister, whether the lands are open for entry or are leased, reserved, held under entry, or included in a timber berth, gives to the occupant or squatter no right thereto, and he may be ejected as a trespasser by a person securing an entry therefor, or by the holder of a licence or lease therefor, otherwise legally entitled to do so, or by proceedings instituted at the instance of the Minister, and his improvements may be forfeited to the Crown.

PERFECTING AN ENTRY.

Section 14.—(a.) Every entrant for a homestead or pre-emption shall be allowed six months from the date of entry within which to perfect the same by taking possession of the land and commencing the required residence duties on the homestead, or in the case of a Conditional Purchase entrant, by commencing the required cultivation duties; and any entry which is not so perfected within that period shall be liable to cancellation.

(b.) The Minister may, on satisfactory cause being shown for an entrant failing to perfect his

entry within six months from the date thereof, protect the entry from cancellation for further periods not exceeding in the aggregate six months; but no entry which is not perfected within twelve months from the date thereof shall be protected from cancellation for any further period.

(c.) After entry has been perfected as hereinbefore provided, the Minister may, in cases of calamity or illness, vouched for by satisfactory evidence, or in the case of immigrant settlers returning for their families, or in other special cases, grant leave of absence to the entrant without prejudice to his rights, but the time so granted shall not be counted as residence.

ABANDONMENT OF ENTRY.

Section 15.—(a.) An entrant may, by permission of the Minister, abandon his entry and obtain authority to make another entry upon executing the prescribed declaration.

(b.) A declaration of abandonment must reach the Department before authority shall issue permitting the person abandoning to make another application for entry. Notice of abandonment by wire shall not be accepted.

CANCELLATION OF ENTRY.

Section 16.—(a.) If an entrant fails in any year to fulfil the requirements of these regulations as to perfecting the entry or as to residence or cultivation duties or any other requirement or condition under which the entry was granted, the Minister may cancel the entry, and all rights of the entrant in virtue thereof shall thereupon cease and determine. The Minister may, if he deems necessary, require an entrant to furnish proof by declaration or otherwise as to the performance of duties by him.

(b.) Notwithstanding anything in these regulations to the contrary, if the entrant for a homestead or for a pre-emption is absent from the homestead for a period of more than six months at any one time the entry or entries shall be liable to cancellation.

(c.) If an entry is obtained or granted through error, misrepresentation, perjury, personation, or fraud of any kind, the entry may be cancelled and the person so obtaining entry shall be liable in the discretion of the Minister to forfeiture of his right to make another entry, or of his improvements, if any, or of both.

(d.) If a person obtains or abandons an entry for a consideration, directly or indirectly, paid, agreed upon, or understood, the entry shall be liable to cancellation and the entrant shall be liable in the Minister's discretion to forfeiture of his right to make another entry or to loss of improvements, if any, or to both.

(e.) If entry is obtained for land which in the opinion of the Minister should not have been granted on account of hay or merchantable timber upon it, or if timber thereon is disposed of without authority, the entry may be cancelled.

(f.) An entry shall also be cancellable if granted for land not then open to entry, or if the entrant was not at the time of entry eligible to enter, or for violation of the provisions of clauses (i), (j), and (k) of section 13 of these regulations respecting sole use of entrant, employees, and improvements.

(g.) A pre-emption entry shall be cancelled if for any reason the homestead entry to which it is attached is cancelled; but a pre-emption entry may be cancelled without thereby cancelling the homestead entry.

(h.) If it is ascertained that land which is held under entry or any portion thereof is necessary for the protection of any water supply, or for the location or construction of any works necessary to the development of any water power, or system of irrigation, or for the purposes of any harbour or landing, the Minister may, at any time before the issue of letters patent, cancel the entry, or withdraw from its application any portion of the land entered for, but, where the land is required for the location or construction of works necessary to the development of any water power or system of irrigation, only in so far as the land is necessary for that purpose, but no entry shall be cancelled under the provisions of this paragraph until the entrant has been compensated for any improve-

ments made by him on the land, and in the event of the failure of the entrant to agree to accept the amount allowed by the Minister as compensation the amount shall be fixed by arbitration.

(i.) Any person eligible to enter under these regulations shall be eligible to make application for the cancellation of an entry which is liable to cancellation, for the purpose of re-entry by himself; and the Minister shall cause such instructions to be given to agents and sub-agents as will insure the proper receiving and recording of such applications for cancellation, the institution of cancellation proceedings pursuant thereto, the defining of the eligibility and priority of the applicant, and the disposal of lands for which entries have been cancelled.

PATENT AND REQUIREMENTS THEREFOR.

Requirements.

Section 17.—(a.) Every entrant for a homestead, pre-emption, or conditional purchase shall, except as herein otherwise provided, be required before the issue of the patent for the land held under entry:—

1. To have held such land for his own exclusive use and benefit during the period prescribed by these regulations for the acquiring of patent therefor.

2. To have performed the residence duties in connection therewith for the term prescribed by these regulations, and to have performed cultivation duties for the area required to the satisfaction of the Minister.

3. To have erected a house of the value of at least three hundred dollars upon the homestead or conditional purchase, as the case may be, entered for after the passing of these regulations.

4. In the case of a pre-emption or conditional purchase, to have paid the purchase price and accrued interest.

5. In the case of an entrant who holds both a homestead and pre-emption, to have become entitled to patent for both the homestead and pre-emption before patent for either shall be issued.

6. To have fulfilled or complied with, to the satisfaction of the Minister, such other conditions, if any, as may have been attached to the granting of the entry.

7. To be a British subject.

Application for Patent.

(b.) 1. An entrant for a homestead, pre-emption, or conditional purchase may, after the period fixed by these regulations for the completion of the requirements for obtaining patent therefor has fully elapsed, make application for such patent; and if it is proved to the satisfaction of the local agent or officer acting for him that the said requirements have been fulfilled, and if the proof is accepted by the Commissioner of Dominion Lands, the entrant shall be entitled to patent; or in the event of the entrant becoming insane or mentally incapable, his guardian, committee, or any person who, in the event of his death, would be his legal representative, may make the application for patent; or in the event of the death of the entrant, his legal representative or the assignee of the legal representative may make the application for and become entitled to patent as herein provided.

2. Proof under this section shall be in the form of a sworn statement by the applicant, corroborated by the sworn statements of two disinterested parties resident in the vicinity of the land who are able to testify from their personal knowledge and not from hearsay, and who are not members of the entrant's family. Such statements shall be made before a local agent, a senior assistant or other officer acting for the local agent, a sub-agent, a homestead inspector, or such person as is thereunto authorised by the Minister. In connection with a deceased or insane entrant, the Minister may, however, receive proof of the facts in such manner as he sees fit to require, and upon being satisfied that the claim has been proved may allow the claim and cause the patent to issue accordingly.

Naturalisation.

(c.) Patent for a homestead, pre-emption, or conditional purchase shall not issue to any person who is not a subject of His Majesty by birth or

naturalisation: Provided, however, that on completion of the requirements therefor patent may issue to an alien entrant who has become insane or mentally incapable, or to the alien legal representative of an entrant who has died.

Forfeiture.

(d.) Failure on the part of an entrant to apply for patent within a period of two years in addition to and after expiration of the term of years prescribed for the completion of the requirements for the obtaining of patent shall render his right to the land liable to forfeiture on the order of the Minister.

Residence Defined.

(e.) 1. "Residence" or "residence duties" for the purposes of these regulations means actual bona fide residence upon the land affected by the entrant in person for a total of six months in each year for the term of years prescribed in connection with the entry. Residence shall not be done by proxy.

2. Residence shall be performed for at least six months in each year during the term of years prescribed for the respective divisions, which term shall commence only from the date of the entry, unless residence was commenced before entry, in which case the term may be counted from the commencement of residence before entry, but not otherwise.

3. Sleeping on the land at night for a period of six months in the year while the entrant is following elsewhere during the day-time a trade or calling other than agriculture shall not be construed to be residence duties within the meaning of these regulations unless the residence of the entrant is established by his family living continuously on the said land during such periods of residence, and by the said land being his own sole place of abode during such periods.

4. Residence for any period less than thirty consecutive days shall not be accepted as constituting residence for the purpose of perfecting an entry or of establishing an entrant in good standing.

(f.) Deceased Entrant.

In the event of the death of an entrant before the completion of the requirements for the obtaining of patent therefor, his legal representative shall only be required to fulfil the conditions of subsection (a) hereof as to the erection of a house of the prescribed value, as to cultivation duties, and as to payment of the purchase price and accrued interest in the case of a pre-emption or conditional purchase, in order to obtain patent after the expiration of the prescribed term of years; or the legal representative may assign the land to a person eligible to obtain an entry, and the assignee shall be entitled to patent therefor, after (1st) the prescribed term has elapsed, (2nd) holding the land for his own exclusive use and benefit from the date of the assignment, and (3rd) completing the residence and cultivation and other requirements in the same manner as the deceased entrant would have been required to complete them. The assignee shall not thereby exhaust his right of entry.

Insane Entrant.

(g.) In the event of an entrant becoming insane or mentally incapable, and by reason of such insanity or mental incapacity unable to complete the requirements necessary to the obtaining of patent, the guardian or committee of the said person, or any person who, in the event of his death, would be entitled as his legal representative to do so, shall only be required to fulfil the conditions set forth in subsection (a) hereof as to the erection of a house of the prescribed value, as to cultivation duties, and further, in the case of a pre-emption or conditional purchase, as to the payment of the purchase price and accrued interest, in order to obtain issue of patent, which, however, shall not issue until after the expiration of the prescribed term of years.

Physical Disability, etc.

(h.) If it is shown to the satisfaction of the Governor in Council that an entrant has, after making entry, become physically disabled and unable to comply with the residence requirements

under these regulations, such residence requirements may be dispensed with by order of the Governor in Council, but the requirements as to cultivation, the erection of a house, or otherwise shall not be dispensed with:

(i.) If it is shown to the satisfaction of the Governor in Council that an entrant has faithfully and to the best of his ability endeavoured to perform the duties required of him, but who, from some unpreventable cause or physical incapacity, has failed to complete these duties, or who through some technicality is held to have failed in fulfilling the requirements of the regulations, but yet has a moral or equitable claim entitling him to consideration, the Governor in Council may order the sale of the land to the said entrant at a price not less than five dollars per acre.

(j.) *Military Service.*

1. Notwithstanding anything in these regulations, the time during which an entrant is absent from his homestead while he is a member of a military force enrolled under the authority of the Minister of Militia and engaged as a member of that force in the suppression of an outbreak or insurrection in any part of the British Empire, or in the defence of the British Empire against a foreign power, or is a member of a company or contingent of Canadian volunteers enrolled under the authority of the Minister of Militia for active service, and also for a period not exceeding three months after his discharge as a member of the said force, company, or contingent, to permit him to resume his residence upon his homestead, may be counted as residence upon his homestead within the meaning of these regulations.

2. If it is established to the satisfaction of the Minister that an entrant, while on active service as a member of any such force, company, or contingent, is so disabled by wounds received in battle, or because of illness resulting therefrom, or from any other cause, after his enrolment as a member of such force, company, or contingent, and up to the date of his discharge therefrom, that it is not possible for him, because of such wounds or illness, or other cause, to resume occupation of his homestead and complete the conditions of his entry therefor, the Minister may forthwith cause to issue letters patent for the homestead in his favour.

(k.) *Assignment before Patent.*

Except as herein otherwise provided, every assignment or transfer of a homestead, pre-emption, or conditional purchase, or any part thereof, and every agreement to so assign or transfer after patent issued made or entered into before the issue of patent, shall, unless the Minister otherwise declares, be null and void; and unless the Minister otherwise declares, the person so assigning or transferring or making any agreement to assign or transfer shall, on order of the Minister, forfeit his homestead, pre-emption, or conditional purchase, as the case may be, or, if the Minister so orders, all or any of them.

HAY LANDS.

Section 18.—(a.) Permits to cut hay may be granted by a local agent or other officer appointed for the purpose by the Minister, upon any Dominion lands at the disposal of the Crown, and permits thus granted shall vest in the permittee exclusive rights of ownership as to the hay upon such lands, and the permittee shall be deemed to be in possession of the land described in his permit.

(b.) Applications for permits to cut hay may be received after the first day of January, and permits may be issued on and after the first day of April in each year. If before the first day of April more than one permit is applied for covering any section or sections of land, or any portion of any section, the agent, if he cannot arrange a division of the land to suit the several applicants, may post a notice in his office calling for tenders for the purchase of the hay upon such lands, and shall issue a permit to the person who may offer the highest cash bonus over and above the regular rates.

(c.) No hay shall be cut on Dominion lands prior to a date to be fixed each year by the Minister, which date may vary according to whether the season be early or late.

(d.) The applicant shall be required to pay an office fee of fifty (50) cents before he can obtain a permit.

(e.) The rate chargeable for permits shall be to actual settlers who require the hay for their own use, ten (10) cents per acre or ten (10) cents per ton, otherwise the rate shall be fifty (50) cents per acre or fifty (50) cents per ton, to be paid in full at the time of application.

(f.) The local agent may issue a permit covering a specified area of land or a specified quantity of hay as the circumstances of the case may, in his opinion, render advisable.

(g.) *Cutting Hay without Authority.*

The permit shall describe the lands upon which hay may be cut, and shall during its continuance vest in the permittee the exclusive right of ownership to the hay on such lands, whether such hay is cut by his authority or by any person without his authority, and such permit shall entitle the permittee to seize in replevin, revendication, or otherwise as his property such hay where the same is found in the possession of any unauthorised person, and also to bring any suit or action against any person unlawfully in possession of such hay, and to prosecute all persons cutting hay in trespass upon the land covered by the permit to conviction and judgment and to recover damages, if any, and all proceedings pending at the expiration of any such permit may be continued and completed as if the permit had not expired. The holder of a permit may bring and maintain actions for trespass committed at any time before the expiry of his permit upon the lands described therein.

IRRIGATION AND RECLAMATION.

Section 19.—Lands unsuited for agriculture without the aid of irrigation, or lands required in connection with any system of irrigation, or marsh or swamp lands capable of reclamation, shall be subject to such orders and regulations as may from time to time be made by the Governor in Council.

SALE OF LANDS.

Section 20.—(a.) Agricultural lands in the railway belt are not open to ordinary sale, but the Minister may within the Kamloops Division sell a fractional quarter section or remaining piece of a quarter section less than eighty acres in area, and within the other divisions a fractional legal subdivision, or a remaining piece of a legal subdivision, less than twenty acres in area, to the owner or entrant of adjoining land. Such sale may be subject to or free from homestead conditions and shall be at a rate not less than five dollars per acre, but subject, in the case of an entrant, to the obtaining of patent for the land held under entry.

(b.) The Minister may sell land, required in connection with an industrial enterprise or other special purpose, of an area not exceeding forty acres, at such price and on such terms and conditions as to use, operation, or otherwise prior to issue of patent as he may deem suitable, and may reserve on application the land so required from other disposition pending decision.

(c.) The Minister may reserve from sale or settlement any tract or tracts of land, and lay the same out into town or village lots; any tract or tracts of land so laid out into lots to be disposed of or under the authority of the Governor in Council.

LANDS FOR PUBLIC PURPOSES.

Section 21.—Lands required for the sites of places of public worship, burial grounds, schools, and benevolent institutions, and for other public purposes may be set apart and appropriated for such purposes by order of the Governor in Council, who may at any time before the issue of patents therefor alter or revoke such appropriations; and the Governor in Council may make free grants for the purposes aforesaid, of the lands so appropriated, the trusts and uses to which they are to be subject being expressed in the patents.

RIGHTS UNDER AGREEMENT OF SALE OR UNDER LEASE.

Section 22.—(a.) A receipt for a payment on account of the sale or lease of land shall, unless the sale or lease has been forfeited, revoked, or cancelled, or has expired, entitle the person to whom it was issued, to take, occupy, and use the land

described in the receipt, and to hold possession thereof to the exclusion of any other person, and to bring and maintain actions for trespass committed on the said land; and the land shall not be liable to be taken in execution before the issue of letters patent therefor:

Provided nevertheless that occupancy, use, and possession of such land shall be subject to the conditions of the sale or lease and to the provisions of these or any other regulations or of any Act affecting it.

(b.) The sale or lease of land as agricultural, grazing, hay, or marsh land, or of land for or in connection with irrigation shall not convey any right to the salt, coal, petroleum, natural gas, gold, silver, copper, iron, or other mineral; nor shall any sale, purchase, or lease of land as agricultural, grazing, hay, marsh, or mineral land or land for or in connection with irrigation, convey, unless it is expressly conveyed, any exclusive or other property or interest in, or any exclusive right or privilege with respect to, any lake, spring, stream, or other body of water within or bordering on or passing through the land.

SURVEYS.

Section 23.—(a.) The provisions of the "Dominion Lands Surveys Act" apply to the railway belt and such other provisions respecting surveys as the Governor in Council may from time to time deem it expedient to make.

(b.) In surveying Dominion lands in the railway belt, an allowance shall be made of an additional three acres in each quarter section of one hundred and sixty acres, more or less, for roads.

(c.) The right is reserved to the Governor in Council, in the case of an entry, lease, or patent for land subject to these regulations, to order the survey through such land by a Dominion Land Surveyor of any public roads or highways that he may deem expedient, and to take any existing road or any area of land required for or in connection with that purpose, and to enter upon and construct ditches through land necessary for or in connection with that purpose and to take therefrom any gravel, stone, timber, or other material required in connection therewith, and every patent issued for land subject to these regulations shall contain a provision reserving such right.

(d.) On the approval of the survey of a public highway the fact shall be notified to the Lieutenant-Governor of British Columbia by the Minister of the Interior, and by virtue of such notification such public highway shall become the property of the said Province, the legal title thereto remaining in the Crown for the public use of the Province; but no such road shall be closed up or its direction varied, or any part of the land occupied by it be sold or otherwise alienated without the consent of the Governor in Council.

(e.) Until roads in place thereof have been located and constructed, all existing necessary trails shall be maintained and a convenient right-of-way not exceeding sixty-six (66) feet in width through any land subject to these regulations is hereby reserved for the use of settlers, landholders, timber-berth holders, and others in passing to and from their locations or lands; and every entry, patent, lease of grazing lands, timber lease or licence, or other lease or licence for lands shall be subject to the above reservation; provided always that such settler, landholder, timber-berth holder, or other person making use of the aforesaid privileges shall not damage the fences, crops, or other property of the occupier of any such lands, and provided that in the case of any dispute arising as to the use of such trail or right-of-way the decision of the Minister shall be final.

ADMINISTRATION.

MINISTER.

Section 24.—(a.) The Minister shall have the administration and management of all lands of the Dominion to which these regulations apply, and shall perform all such acts as may be necessary on his part to the proper carrying-out of these regulations, and may perform all such acts not herein specifically provided for as are not inconsistent with these regulations according to their true intent and

meaning, and he shall appoint any officers that may be required for the purposes of such administration and management whose appointment is not provided for by the "Civil Service Act," or herein otherwise provided for, and may define their duties.

(b.) The Minister may execute on behalf of the Crown all leases and licences issued under the provisions of these regulations.

(c.) The Minister may establish a tariff of fees for all copies of maps, plans, field notes, documents, papers, or other records of the Department of the Interior and for the registrar of assignments therein.

(d.) The Minister may, whenever he deems it necessary so to do, vary any of the forms in the schedule to these regulations or amendments thereto, or he may from time to time adopt other forms as he may deem necessary.

(e.) The Minister shall cause to be kept in the department books for registering at the option of the persons interested, assignments of any right or interest acquired under these regulations or subsisting at the time of the passing thereof, which is assignable under the provisions hereof; and every assignment duly registered shall be valid against any other assignment unregistered or subsequently registered; but no assignment shall be registered unless it is unconditional and unless the execution has been proved to the satisfaction of the Minister; provided that in no case shall the registration of any assignment relating to undescribed Dominion lands be held to make it incumbent on the Minister to provide for the future granting of any land or right under that assignment.

(f.) The Minister shall cause the Registrar-General of the Province of British Columbia to be advised of the issue of patents for Dominion lands within the railway belt.

EMPLOYEES.

(g.) No officer or employee of the Department of the Interior shall, directly or indirectly, in his own name or in that of any other person, purchase or acquire by entry or otherwise any Dominion lands, or any interest therein, nor shall he be interested as shareholder or otherwise in any corporation or company purchasing or acquiring such lands or any interest therein, except by or under authority of an order of the Governor in Council, nor shall he locate any land warrant or scrip, unless issued to himself, or act as an agent of any person in that behalf, and any employee violating these provisions shall be liable to summary dismissal on the order of the Minister; but his dismissal shall not affect the right which any person may have to bring against him any civil or criminal action.

(h.) Land in the railway belt shall not be paid for or located under half-breed scrip and volunteer bounty scrip; and any officer or employee of the Interior Department is prohibited from dealings or transactions in scrip unless as original grantee in his own right.

(i.) No officer or employee of or under the Department of the Interior shall disclose to any person, except with the authority of the Minister, any discovery made by him or by any other employee of the said Department, or disclose any information of which he is possessed in relation to Dominion lands within the railway belt, and any officer or employee violating these provisions shall be liable to summary dismissal on the order of the Minister, but his dismissal shall not affect the right which any person may have to bring against him any civil or criminal action.

(j.) Any officer or employee giving improper information or unduly favouring any individual in respect to the acceptance of an application, or imparting information so as to give any person an undue advantage over another, shall be dismissed.

EVIDENCE.

(k.) RODOLPHE BOUDREAU,

je16

Clerk of the Privy Council.

[1,002.]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Saturday, the 21st day of May, 1910.

PRESENT:

HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL.

THE Minister of the Interior states, under date 13th May, 1910, that the Vancouver Power Company, Limited, has submitted to him plans and reports by its engineers of certain proposed hydraulic undertakings by it in the Railway Belt in the Province of British Columbia which the Company claims are rendered necessary by the rapid development of the territory which it serves, and the consequent large extensions now being made and planned for in the near future of the electric railway system of the British Columbia Electric Railway Company, the parent Company of the said Vancouver Power Company.

The said Vancouver Power Company's plans contemplate the use of the waters of two lakes, viz.: Chilliwack Lake and Jones Lake, both lying south of the Fraser River and about eighty (80) miles east of Vancouver. Chilliwack Lake being situated partly within and partly outside of the Railway Belt and at an elevation of 2,080 feet above the sea, and Jones Lake lying about twelve (12) miles north-west of Chilliwack Lake wholly within the Railway Belt and at an elevation of 1,950 feet above the sea.

The proposed development will require, before being proceeded with, that the Company shall be assured of acquiring title, but for the purposes of these hydraulic undertakings only, to certain undisposed-of lands of the Crown in the right of the Dominion for the purpose of sites for dams and power-works and for right-of-way purposes, for

flume and tunnel construction and roads; and certain other lands are required for flooding purposes, and which latter lands, in accordance with the practice of the Department of the Interior as to lands for such purposes, would be leased only, and for the purposes of the hydraulic undertakings only.

The development in connection with Chilliwack Lake involves for the present a rock-filled timber-crib dam at the outlet near the north end of the lake to raise the level of the lake about 20 feet. A permanent dam fifty (50) feet in height to be later on substituted below it. About half a mile down the Chilliwack River from the lake (the said river being the outlet of the lake) a lower dam will be built to divert about 50 per cent. of the normal flowage of the waters of the river out of the stream-bed into a flume or ditch. From this diverting dam a flume or ditch will be constructed for about 10½ miles westerly along the valley of the Chilliwack River, but so as to carry a suitable grade, to a point on a tributary named Ford Creek, from which point a tunnel will be constructed 5¼ miles in a north-westerly direction towards the Fraser River, where the power-house will be situated on Section 15, Township 3, Range 28 west of the 6th meridian.

The development in connection with Jones Lake involves for the present a rock-filled timber-crib dam at the outlet of the lake to raise the lake-level about 20 feet. A permanent dam of 50 feet in height to be later on substituted below it. From the most westerly suitable point in Jones Lake a tunnel will be driven in a westerly direction for a distance of about 10,200 feet towards the point on the Fraser River where the water from Chilliwack Lake is delivered.

The estimated continuous horse-power on the wheel-shaft at the power-house as given by the Company for the Chilliwack Lake development is 80,000, using 500 cubic feet of water per second, and for the Jones Lake development 16,300 when using 100 cubic feet per second.

The estimated cost of the proposed works is given in the Company's applications as \$7,148,400 for the Chilliwack Lake development and \$2,206,625 for the Jones Lake development, making a grand total of \$9,355,025, and the Company states that the proposed Chilliwack Lake development is one of the largest and costliest ever undertaken on this continent. It is expected that about six years will be required to complete the Chilliwack Lake development and about two years and a half to complete the Jones Lake development. In both cases the time required may be somewhat longer, owing to adverse conditions due to elevation, climate, absence of roads, etc. Detailed figures are given in the reports of the Company's engineers accompanying the applications and showing how the amounts given are made up. Copy of the Company's application in respect of the Jones Lake application is hereto attached marked "A." The application in respect of Chilliwack Lake is dealt with in another memorandum to Your Excellency in Council of even date herewith.

The Minister is impressed with the desirability in the public interest of encouraging the development of the unused natural resources in the waters of the two lakes referred to in the applications by giving the desired assurance as to the conveyance of the lands required under proper provisions safeguarding the public interest and the interests of timber lessees on lands in the district affected by the proposed works, and with provisions also guaranteeing the continuous prosecution to successful completion within a reasonable time of the said undertakings, and therefore recommends in respect of the Jones Lake application that he (the Minister) be authorised to at once have prepared an agreement to be entered into between the Minister of the Interior as representing the Government of Canada and the Company, and which shall contain provisions covering the following matters:—

1. The safety of the proposed dams and other works.

Detailed plans and specifications to be submitted to the Minister for approval by him as soon as practicable and within one year from date, and

such plans and specifications to be examined by an engineer of recognised standing in such matters, appointed by the Minister of the Interior, and the account for such engineer's services to be rendered by the Government to the Company and paid by the Company, and such plans and specifications to be subject to such changes as the said engineer may advise, before being approved by the Minister. Provision to be also made so far as the Minister of the Interior considers necessary in the public interest for inspection by an engineer appointed by the Minister, and the account for such engineer's services to be rendered by the Government to the Company and paid by the Company. The works to be inspected by said engineer as they are proceeded with after the plans and specifications are approved.

2. Rights in the waters of Jones Lake for agricultural and domestic purposes.

The rights that may be claimed in the waters flowing from Jones Lake for agricultural and domestic purposes to be safeguarded by a provision that the Minister may require the Company to release such water for the purposes stated as he may from time to time direct.

3. The rights of lessees of timber from the Department of the Interior on lands surrounding the said lake or on the river flowing out of the said lake, in respect of the use by the said lessees of the waters from the said lake for the purpose of driving logs.

The Minister to have the right to direct from time to time at the request of such lessees that the Company shall release such water for the purpose of driving logs out from the said lands under lease surrounding the said lake and along the river, as he may think proper in the interest of the said lessee.

4. The rights of any of the above lessees so far as timber rights under licence to them will be prejudicially affected by the proposed flooding of lands surrounding the said lake.

The Company to file in the Department of the Interior, before actual construction commences under the plans and specifications to be furnished by the Company and approved by the Minister, a release and settlement with each of the said lessees as to any rights to timber within lands under lease to them respectively and which will be prejudicially affected by the proposed raising of the waters of the said lake.

5. Timber on lands belonging to the Crown in the right of the Dominion and not under licence and which may be used or destroyed by the Company.

The Company to pay into the Department of the Interior the usual dues under the regulations on all such timber.

6. The question of possible injury to fishing interests through the erection by the Company of any of the proposed dams.

The Company to file in the Department of the Interior, before actual construction under the approved plans and specifications has been commenced, a statement by the proper officers of the Marine and Fisheries Department that all provisions considered necessary have been made in the plans and specifications.

7. Provision for the faithful carrying-out of the dams and works and for the payment by the Company of all damage that may be caused by the said dams or works.

(a.) In the erection of the dams and works the Company shall faithfully adhere to the plans as finally approved by the Minister, subject to such modifications as may be found necessary and shall be approved by the Minister.

(b.) The Company shall, if required, submit to the Department of the Interior detailed plans of any portion of the works as they are developed.

(c.) Weekly reports of progress during construction shall be submitted to the Minister.

(d.) The Minister shall have the right to place an Inspector on the work for the purpose of seeing that the dams and other works are carried out in accordance with the approved plans and the proposed agreement; the salary of such Inspector to be paid as is hereinbefore provided.

(e.) The Company shall after the completion of the dams maintain and operate the same to the satisfaction of the Minister, who shall have the right, at the expense of the Company, to have the same inspected as the Minister may require by an officer appointed by the Minister.

(f.) The Company shall furnish and keep in force security approved by the Minister for the payment by it of all damage that may at any time be occasioned by the construction or operation of the dams or works, or by any breaking of or other injury to said dams or works, after their construction, and the said security shall also be held to cover any ascertained damages to lands on the Jones River by reason of the normal flow of the water being diverted from said stream.

8. The Company's application to purchase land for its works.

The Minister to reserve in the records of the Department of the Interior from sale or other disposition the lands described in Schedule hereto attached marked "B," and to be authorised to convey, under conditions hereinafter fully set out, to the said Vancouver Power Company from out of the said lands the following:—

(a.) Land necessary for site of temporary and permanent dams at the outlet of Jones Lake, not exceeding eighty (80) acres.

(b.) Land necessary for tunnel portals for the tunnel to carry the waters of Jones Lake, not exceeding eighty (80) acres in all.

(c.) Land necessary for the right-of-way 400 feet wide for the tunnel to carry the waters to be diverted from Jones Lake and extending from the land to be granted for the upper portal of the tunnel to the land to be granted for the lower portal.

(d.) Land necessary for the right-of-way 400 feet wide for the steel outlet-pipes connecting the said tunnel with the power-house.

(e.) Land necessary for the power-house and works on the Fraser River, area to be decided by the Minister, but not exceeding one hundred (100) acres.

9. The Company's applications for land for flooding purposes around Jones Lake.

The Minister to reserve in the records of the Department of the Interior from sale or other disposition the lands described in Schedule hereto attached marked "C," and to be authorised to issue a lease in the name of the Company for such portions of the said lands, estimated at a total of 3,057 acres around the lake, as are found on actual survey by a Dominion Land Surveyor, employed by the Company and under instructions from the Department of the Interior, to lie below contour lines 50 feet above the normal level of the said lake; said lease to provide for an annual rental, payable each year in advance, of 25 cents per acre, and to contain a proviso that the lands are not to be used for any other purpose than for and in connection with the water-power development by the Company, and said lease to be issued only after the conveyance to the Company of the land for its other works as herein provided for.

10. The Company's applications for land for roads.

The Company to be allowed to lay out and survey through lands the property of the Crown in the right of the Dominion, by a Dominion Land Surveyor, land necessary for a roadway along the Jones River to Jones Lake to give access to any of the proposed works; and the Company shall not be called upon to make any payment for such land to the Government, but shall survey the said roads within one year of the date of this Order in Council, and upon approval of the survey by the Surveyor-General, cause the said land to be dedicated to the public for use for roadway purposes.

11. Continuous prosecution to successful completion of the proposed undertakings.

The Company to proceed with diligence with the construction of the works as soon as practicable after approval of its plans and specifications by the Minister of the Interior, and to spend in actual construction operations within one year from the date of approval of said plans and specifications a sum of not less than \$25,000. The Company to

complete all the works in connection with the Jones Lake development within five years of the said date of approval of the plans and specifications; and—

(a.) Should the Company not file plans and specifications for approval within one year of the date of this Order in Council; or

(b.) Should the Company not spend in actual construction operations within one year from the date of approval of said plans and specifications a sum of not less than \$25,000; or

(c.) Should the Company not use due diligence in prosecuting the work to successful completion for the remainder of the period allowed; or

(d.) Should the Company fail to complete the said works within the said five years,

He may call on the Company to show cause why he should not withdraw the reserve on all the lands applied for, and why he shall not declare the Company to have forfeited all claim on any of said lands; but if the Company shall show to the satisfaction of the Minister that it has spent not less than a quarter of a million dollars on the Jones Lake development in each year subsequent to the first year, after the approval of the plans and specifications, then no action shall be taken by the Minister towards the withdrawal of the reserve on any of the lands until the expiration of the five-year period allowed for completion.

12. The conditions to be fulfilled before conveyance to the Company of any of the lands applied for.

(a.) Completion of all the works connected with the development of the water-power from Jones Lake to the satisfaction of the Minister in accordance with the terms of this Order in Council, as hereinbefore provided for.

(b.) Payment by the Company into the Department of the Interior of the required amount at the rate of ten (10) dollars per acre.

(c.) Patents to the Company to contain a proviso that the lands are not to be used for any other purpose than for and in connection with the water-power development of the Company.

(d.) The Company to file in the Department of the Interior plans of survey by a Dominion Land Surveyor approved by the Surveyor-General showing the land required.

(e.) Persons in occupation of any of the land. The Company to procure and file in the Department of the Interior unconditional release of claim of any person in occupation of any of the lands at the date of this Order in Council.

13. The approval of the Company's undertakings, and authority to proceed with construction.

When the Company's plans and specifications have been completed and approved by the Minister of the Interior as hereinbefore provided for, the Minister to be authorised to give the Company permission to proceed with its undertaking.

The Minister further recommends that upon the said agreement having been prepared and executed by the Company, he be authorised to sign and execute it as representing the Government of Canada.

The Committee submit the same for approval.

VANCOUVER POWER COMPANY, LIMITED.

VANCOUVER, B. C., May 9th, 1910.

Honourable Frank Oliver,

Minister of the Interior,

Ottawa.

Jones Lake Development.

SIR.—I have the honour, on behalf of the Vancouver Power Company, Limited, further referring to our application to you dated March 11th, 1910, in which we applied for two hundred (200) cubic feet per second of water out of Jones Lake, District of Yale, Province of British Columbia, to respectfully submit the following:—

Vancouver Power Company, Limited.—The Company is one of the subsidiaries of the British

Columbia Electric Railway Co., Ltd., and was incorporated January 25th, 1898, pursuant to Part IV. of the "Water Clauses Consolidation Act, 1897," of the Statutes of British Columbia. The objects for which the Company was established were (inter alia) the acquisition of water for hydro-electric development, the generation of electricity for light, heat, and power purposes, and the construction and operation of electric railways, etc. The Company owns and operates the Coquitlam hydro-electric undertaking, and furnishes the British Columbia Electric Railway Company with all the electric energy required for operating its railway, lighting, and power systems on the mainland of British Columbia. The Company also owns the railway, light, and power systems in North Vancouver, City and District, and is at present constructing an electric railway, sixty-five miles in length, from the City of New Westminster easterly through the Fraser Valley to the City of Chilliwack. It has also in contemplation the construction of other lines which will materially assist in promoting the development and prosperity of the lower mainland region of the Province, but cannot actively prosecute these new enterprises until assured of a further power-supply.

The capital of the Company is \$2,500,000, fully paid, but it has expended to date over \$5,000,000 on its hydro-electric development and railway enterprises.

Jones Lake.—The lake is situated in a valley high up in a spur of the Chem Mountains east and north of the Town of Chilliwack, and about seven miles east of Agassiz, a station on the Canadian Pacific Railway. The lake lies at a level of about 1,950 feet above sea-level, its surface area is 1,263 acres and its drainage area is approximately forty square miles. There are no fish in the lake, and there is no settlement in the locality owing to the rough and mountainous conditions thereabouts. No Crown lands have been alienated in the district affected by the proposed undertaking, but application has been filed for one or two small areas adjoining the Fraser River in the section on which it is proposed to erect the generating plant and its accessories. Several timber licences have been issued on lands bordering the lake.

Plan of Development.—It is proposed to construct at first a rock-filled timber-crib dam at the outlet of the lake of sufficient height to raise the lake-level 20 feet and at a later date to construct a 50-foot dam of permanent type.

Before the level of the water in the lake is raised by means of the dam, a tunnel will be driven from the most westerly point on the shore-line through the mountains to their western slope in the valley of the Fraser, a distance of 10,200 feet, and from the outlet of the tunnel to the power-house located on the bank of the Fraser River the water will be conveyed by pressure-pipes, 6,000 feet in length.

To begin with it is proposed to utilise 100 cubic feet per second, which under an effective head or fall of 1,800 feet will develop 16,300 continuous horse-power on the wheel-shaft, and given a peak load of 27,200 horse-power. There will be three 10,000 horse-power maximum output water-wheels of the impulse type, and the power-house will be constructed of concrete and fire-proof throughout.

For your further information I am enclosing herewith the report of our Consulting Engineers, Messrs. Sanderson & Porter, New York, on the Jones Lake proposition. This report gives a full general outline of the plan of development.

Lands Required.—The land required for this undertaking is shown on the accompanying map, and is as follows:—

Around Jones Lake	3,057	acres.
Tunnel right-of-way 400 ft. wide.	94	..
Pipe-line	58	..
Power-house site	446	..

Total..... 3,655 ..

These areas have been taken from map measurements as the Government surveys have not been completed in this district. Probably somewhat more land is applied for for power-house purposes than is absolutely necessary, but on account of the

importance of the undertaking and the magnitude of the expenditure involved, which with the Chilliwack Lake development will reach a total of over \$10,000,000, it is thought best to secure ample room for the homes of the large staff of employees which will eventually be gathered there, as well as for the many buildings, shops, etc., which are accessory to the main plant.

The total area of land applied for surrounding the lake—namely, 3,057 acres—is more than actually required, but following the regulations laid down by the Department the whole of each subdivision touched is included. The actual flooded area when the 50-foot dam is built will be approximately 1,040 acres.

Cost of Undertaking.—The total estimated cost of the Jones Lake development is \$2,206,625 plus whatever charge may be made for the land conveyed. Details of cost will be found in the report of our Consulting Engineers, a copy of which is submitted herewith.

Requirements.—In order to be able to proceed at once with the work and complete the development in time to supply the rapidly growing needs of the territory which the Company serves, your favourable action on the following matters is respectfully requested:—

- (1.) Approval of the undertaking.
- (2.) Grant of licence to take from Jones Lake 200 cubic feet of water per second.
- (3.) Permission to erect a dam at the foot of the lake 25 feet in height at once, and ultimately to replace this with a dam 50 feet in height.
- (4.) Authority to divert the aforementioned volume of water from the lake by tunnel and flume to the power-house situated on Section 15, Township 3, Range 28, as shown on plans herewith.
- (5.) Authority to flood the area surrounding the lake as shown on plan herewith, and lease of said flooded areas.
- (6.) Permission to purchase a right-of-way 400 feet in width for tunnel and flume from the tunnel portal on the lake to said Section 15.
- (7.) Permission to purchase such portion of said Section 15 as may be necessary for power-house location and other purposes of the undertaking.
- (8.) Permission to purchase such area of land as may be required for dam-site and tunnel portals.
- (9.) Authority by Order in Council, in the absence of legislation bearing on the subject, to proceed with the undertaking at once.

Rentals and Conditions.—The Company agrees:

- (1.) To pay the Government such rate for water licensed as the regulations of your Department may require.
- (2.) To pay such price for tunnel and flume right-of-way and power-house location as you may fix.
- (3.) To pay such rental per acre for the flooded areas as you may fix.
- (4.) To compensate the timber-licence holders for such portion of their limits as may be flooded by raising the level of the lake, and also for such other timber as may be contained in the tunnel and flume right-of-way.
- (5.) To compensate any squatters now occupying any portion of the lands required for the undertaking, and to reimburse your Department any cost which it may incur in investigating these or any other claims with respect to the proposed undertaking.
- (6.) To submit for your approval before the work of construction is begun the plans of the proposed dam, and to reimburse your Department for any engineering or other costs it may incur in investigating the suitability and stability of the plans submitted.
- (7.) To pay the royalty on all merchantable timber which may be removed or used by the Company in connection with its work.
- (8.) To faithfully perform all conditions and regulations which you may consider necessary and proper to impose.

Conclusion.—The time required to complete the Jones Lake development is estimated by our Consulting Engineers at not less than two years and a half, while owing to adverse conditions due

to elevation, climate, absence of roads, etc., the work may extend over five years. It is expected that our present development at Coquitlam will be fully absorbed in about three years, consequently it will be necessary for the Company to make an early start and prosecute the work on this undertaking rapidly and continuously in order to complete it within the time required. We therefore most respectfully solicit your early and favourable action herein.

I have the honour to be,
Sir,
Your obedient servant,
(Signed) F. R. GLOVER,
Asst. General Manager.

[1,005.]
AT THE GOVERNMENT HOUSE AT
OTTAWA.
Saturday, the 21st day of May, 1910.
PRESENT :
HIS EXCELLENCY THE GOVERNOR-
GENERAL IN COUNCIL.

THE Minister of the Interior, under date 13th May, 1910, refers to the Order in Council of even date herewith, referring to two applications by the Vancouver Power Company in connection with hydraulic undertakings in the Railway Belt of British Columbia, proposed to be undertaken by

it—the one in connection with Jones Lake, which lies wholly within the said Railway Belt, and the other in connection with Chilliwack Lake, which lies partly within and partly outside the said Railway Belt. Copy of the Company's application in respect of Chilliwack Lake is hereto attached marked "A."

The Company in its said application in respect of Chilliwack Lake asks, in addition to its application for the necessary lands and approval of its proposed works and authority to proceed with construction of the same, all of which matters are dealt with in the Order in Council of even date herewith, that—

1. Licence be granted to take from the waters of Chilliwack Lake or River 500 cubic feet per second.

2. Authority be given to divert the volume of water as above stated from the said lake or river by tunnels and flumes as described in the said Order in Council of even date.

3. Authority be given to flood the areas within the Railway Belt surrounding Chilliwack Lake to the extent that the proposed permanent dam will raise the waters of the said lake.

The Company has already applied, under date September 8th, 1909, for a licence to take from the waters of Chilliwack River 40,000 miner's inches of water; 40,000 miner's inches of water is equivalent to slightly over 1,111 cubic feet per second.

The Minister sees no objection to the present application of the Company in respect of the matters above referred to being granted under proper control as to the rental to be charged for the use of the water and the rates to be charged to consumers of the power, so soon as the authority of Parliament is given vesting in Your Excellency in Council the authority to administer undisposed-of waters in the Railway Belt for power purposes, and subject to the fulfilment of all the conditions of agreement provided for in the Order in Council of even date herewith relating to the lands necessary for the development in connection with Chilliwack Lake, and therefore recommends that he be authorised to have prepared an agreement to be entered into between the Minister of the Interior, as representing the Government, and the Company, and which shall contain provisions covering the Company's application for licence to take and divert 500 cubic feet per second of the water of Chilliwack Lake or River and to flood the areas within the Railway Belt surrounding Chilliwack Lake to the extent that the proposed permanent dam will raise the waters of the said lake.

The Minister of the Interior agrees, on behalf of the Government of Canada, that so soon as the authority of Parliament is given vesting in Your Excellency in Council the authority to administer undisposed-of waters in the Railway Belt for power purposes, but subject to the fulfilment of all the conditions of the agreement provided for in the Order in Council of even date herewith relating to the land necessary for the development in connection with Chilliwack Lake, he shall cause to be issued to the Vancouver Power Company a licence to divert and use 500 cubic feet per second of the waters of Chilliwack Lake or River, such licence to be issued under regulations similar to those now in force governing the administration of water-power in Manitoba, Saskatchewan, Alberta, and the North-West Territories; and in issuing this licence for the use of water to the said Company, such licence shall conform as nearly as may be to clauses 1, 2, 3, 5, 6, 7, 8, 9, 10, and 11 of the said regulations, except only that portion of subsection "f" of said section 8 which relates to the return to the stream or other source of water of the full amount of water diverted.

The Minister further recommends that upon the said agreement having been prepared and executed by the Company, he be authorised to sign and execute it as representing the Government of Canada.

The Committee submit the same for approval.

RODOLPHE BOUDREAU,

Clerk of the Privy Council.

VANCOUVER POWER COMPANY, LIMITED.

VANCOUVER, B. C., 9th May, 1910.

Honourable Frank Oliver,
Minister of the Interior,
Ottawa.

SIR,—I have the honour, on behalf of the Vancouver Power Company, further referring to our application dated September 8th, 1909, to respectfully solicit your approval of our proposed undertaking in the matter of power development from Chilliwack Lake, District of Yale, Province of British Columbia.

Chilliwack Lake lies in the extreme south-western corner of the District of Yale, the lower end being close to the international boundary. The waters of the lake supply more than half the flow in Chilliwack River, which river is for many miles torrential in character, but in the lower reaches the grade flattens and the waters spread over the rich low-lying areas in Chilliwack and Sumas Municipalities, creating the chief obstacle to their successful reclamation. Any undertaking, therefore, which will result in the diversion of a considerable portion of the volume of water in Chilliwack River will bring the reclamation of these areas within practicable bounds. Under present conditions, the enormous cost of controlling and disposing of the waters of Chilliwack River places reclamation out of the question. Our Consulting Engineers estimate that 50 per cent. of the normal flowage will be diverted under the plan of development proposed, while the controlling dam which will be erected at the foot of the lake will regulate the lake discharge and tend to further reduce freshet volume. Consequently, the public interests will be greatly benefited by the carrying-out of the proposed undertaking.

The elevation of Chilliwack Lake is 2,080 feet above sea-level, and its area is about 2,600 acres. The extent of the drainage basin has not been definitely ascertained, as a portion of it extends the United States territory, and the country is so mountainous and rugged as to make it very difficult of access.

Water Required.—The quantity of water which we apply for is 500 cubic feet of water per second. This under an effective head of 1,800 feet will deliver 80,000 continuous horse-power on the wheel-shaft.

Plan of Development.—It is proposed at first to construct a rock-filled timber-crib dam at the outlet of Chilliwack Lake of sufficient height to raise the level of the lake 20 or more feet. The dam will be provided with a spillway for the passage of flood waters, and gates and valves for control and discharge of stored water. This structure will provide for sufficient storage to meet all water requirements until the power demand is so increased as to demand the full output of the ultimate development, when it will be replaced by a dam 50 feet in height.

About half a mile down-stream from the storage dam, a lower dam will be constructed to divert the water out of the stream-bed into a flume or ditch. This dam will also be provided with a spillway.

From the diverting dam a flume or ditch will be constructed on the north side of the river for a distance of 10½ miles to Ford Creek.

Before the level of the water in the lake is raised by means of the dam, a tunnel commencing at the end of the flume in Ford Creek Canyon will be driven through the mountains to the valley of the Fraser River. The tunnel will be 14 by 16 feet and 5½ miles in length.

From the outlet of the tunnel steel pressure-pipes will be laid to the power-house erected in connection with the Jones Lake development on Section 15, Township 3, Range 28.

The initial installation will consist of three 10,000 horse-power water-wheels. Later additional power units will be added as required until the maximum development is reached.

Lands Required.—The lands required for this undertaking are shown on the accompanying map, as follows:—

Around Chilliwack Lake.....	2,679	acres.
Flume right-of-way, 400 ft. wide..	522	"
Tunnel " " "	215	"
Pipe-line " " "	51	"
	3,497	"

The flooded area is assumed to be 2,377 acres, but as required by the regulations of the Department all legal subdivisions are included intact. The actual area required around the lake will, therefore, be considerably less than the above figures. Provincial lands at the lower end of the lake are not included in this application.

There are no Crown-granted lands in the territory affected by this undertaking, nor are there any pre-emption applications from intending settlers.

Around Chilliwack Lake there is little or no timber, but on the mountain slopes bordering the river there are some fine bodies of timber, which are held under licence. The flume right-of-way will not affect these holdings in an important degree.

Cost of Undertaking.—The total estimated cost of the Chilliwack Lake development is \$7,148,400 plus such charges as may be made for the lands conveyed.

Further Details.—For your further information I am enclosing herewith the report of our Consulting Engineers, Messrs. Sanderson & Porter, New York, which gives a full general outline of the plan of development, details of cost, and much other valuable matter.

Provincial Records.—The Vancouver Power Company holds three records from the Provincial Government of British Columbia covering 40,000 miner's inches of water out of Chilliwack. These records are numbered 45, 46, and 47 respectively, and were issued 17th January, 1908.

General Requirements.—Inasmuch as not less than six years, under the most favourable conditions, will be required to complete this development, the Company is very anxious to make an immediate commencement of work, and to permit of this, and so enable us to build roads and trails, establish camps, mills, and transportation facilities during the present summer, your favourable action on the following matters is respectfully requested:—

- (1.) Approval of undertaking.
- (2.) Grant of licence to take from Chilliwack Lake 500 cubic feet of water per second.
- (3.) Permission to erect a temporary dam at the foot of the lake 25 feet in height, and ultimately to replace this with a dam 50 feet in height.
- (4.) Authority to erect a diversion dam on Chilliwack River, and to divert the aforementioned volume of water from the river by flume and tunnel to the power-house situated on Section 15, Township 3, Range 28, as shown on plan herewith.
- (5.) Authority to flood the areas surrounding the lake as shown on plan herewith, and lease of said flooded areas.
- (6.) Permission to purchase a right-of-way for tunnel and flume 400 feet in width from the diversion dam on Chilliwack River to said Section 15.
- (7.) Permission to purchase such lands as may be necessary for dam-sites and tunnel portals.
- (8.) Authority by Order in Council, in the absence of legislation bearing on the subject, to proceed with the undertaking at once.

Rentals and Conditions.—The Company agrees:—

- (1.) To pay the Government such rate for water licensed as the regulations of your Department may require.
- (2.) To pay such price for tunnel and flume right-of-way, tunnel portals, and dam-sites as you may fix.
- (3.) To pay such rental per acre for flooded areas as you may fix.
- (4.) To compensate the timber-licence holders for such portion of their limits as may be flooded by raising the level of the lake, and also for such timber as may be contained in the tunnel and flume right-of-way.

(5.) To reimburse your Department any cost which it may be obliged to incur in investigating these or any other claims with respect to the proposed undertaking.

(6.) To submit for your approval before the work of construction is begun the plans of the proposed dam, and to compensate the Government for any engineering or other costs it may incur in investigating the suitability and stability of the plans submitted.

(7.) To pay the royalty on all merchantable timber which may be removed or used by the Company in connection with its work.

(8.) To faithfully perform all conditions and regulations which you may consider necessary and proper to impose.

Conclusion.—The Chilliwack Lake Development is one of the largest and most costly ever undertaken on this continent, but we consider it justified by the present and prospective rapid growth of our electric railway system, and industrial conditions generally in the lower mainland districts. The most serious drawback, however, to the undertaking is the length of time required in construction—namely, six years. One year of this will be required to build roads, organise transportation, and assemble construction equipment. For this reason, and in view of the fact that we fully expect to be urgently in need of additional power by 1916, it is of first importance that we be able to make a commencement this season. We therefore most respectfully solicit your early and favourable action herein.

I have the honour to be,

Sir,

Your obedient servant,

F. R. GLOVER,

Assistant General Manager.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Saturday, the 21st day of May, 1910.

PRESENT:

HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL.

THE Minister of the Interior, under date the 13th May, 1910, refers to a memorandum by him to Your Excellency in Council of even date herewith, referring to two applications by the Vancouver Power Company in connection with hydraulic undertakings in the Railway Belt of British Columbia, proposed to be undertaken by it—the one in connection with Jones Lake, which lies wholly within the said Railway Belt, and the other in connection with Chilliwack Lake, which lies partly within and partly outside the said Railway Belt.

Copy of the Company's application in respect of Chilliwack Lake is hereto attached marked "A."

The Minister recommends that in respect of the Chilliwack Lake application he be authorised to at once have prepared an agreement to be entered into between the Minister of the Interior, as representing the Government of Canada, and the Company, and which shall contain provisions covering the following matters:—

1. The safety of the proposed dams and other works.

Detailed plans and specifications to be submitted to the Minister of the Interior for approval by him as soon as practicable and within one year from date, and such plans and specifications to be examined by an engineer of recognised standing in such matters, appointed by the Minister of the Interior, and the account for such engineer's services to be rendered by the Government to the Company and paid by the Company, and such plans and specifications to be subject to such changes as the said engineer may advise before being approved by the Minister of the Interior. Provision to be also made so far as the Minister considers necessary in the public interest for inspection by an engineer appointed by the Minister, and the account for such engineer's services to be rendered by the Government to the Company and paid by the Company. The works to be inspected

by said engineer as they are proceeded with after the plans and specifications are approved.

2. Rights in the waters of Chilliwack Lake for agricultural and domestic purposes.

The rights that may be claimed in the waters flowing from Chilliwack Lake for agricultural and domestic purposes to be safeguarded by a provision that the Minister of the Interior may require the Company to release such water for the purposes stated as he may from time to time direct.

3. The rights of lessees of timber from the Department of the Interior on lands within the Railway Belt surrounding the said lake or on the river flowing out of the said lake, or of the lessees of timber on Provincial Government lands lying outside the Railway Belt, in respect of the use by the said lessees of the waters from the said lake for the purpose of driving logs.

The Minister of the Interior to have the right to direct from time to time at the request of such lessees that the Company shall release such water for the purpose of driving logs cut from the said lands under lease surrounding the said lake and along the said river, as he may think proper in the interest of the said lessees.

4. The rights of any of the above lessees so far as timber rights under licence to them will be prejudicially affected by the proposed flooding of lands surrounding the said lake.

The Company to file in the Department of the Interior, before actual construction commences under the plans and specifications to be furnished by the Company and approved by the Minister, a release and settlement with each of the said lessees as to any rights to timber within lands under lease to them respectively and which will be prejudicially affected by the proposed raising of the waters of the said lake.

5. The rights of lessees of timber from the Department of the Interior on lands on or in the valley of the Chilliwack River along or in the vicinity of the proposed ditch or flume.

The Company to file in the Department of the Interior, before actual construction commences under the plans and specifications to be furnished by the Company and approved by the Minister of the Interior, a release and settlement with each of the said lessees for the timber on such portions of the land taken for right-of-way for the said ditch or flume as are included in their leases respectively, and for any damage or injury which may be caused in the operation of the said leases by the construction and operation after completion of the said ditch or flume.

6. Timber on lands belonging to the Crown in the right of the Dominion and not under licence and which may be used or destroyed by the Company.

The Company to pay into the Department of the Interior the usual dues under the regulations on all such timber.

7. The question of possible injury to fishing interests through the erection by the Company of any of the proposed dams.

The Company to file in the Department of the Interior, before actual construction under the approved plans and specifications has been commenced, a statement by the proper officers of the Marine and Fisheries Department that all provisions considered necessary have been made in the plans and specifications.

8. Provision for the faithful carrying-out of the work of construction of the dams and works and for the payment by the Company of all damage that may be caused by the said dams or works.

(a.) In the erection of the dams and works the Company shall faithfully adhere to the plans as finally approved by the Minister of the Interior, subject to such modifications as may be found necessary and shall be approved by the Minister of the Interior.

(b.) The Company shall, if required, submit to the Department of the Interior detailed plans of any portion of the works as they are developed.

(c.) Weekly reports of progress during construction shall be submitted to the Minister of the Interior.

(d.) The Minister of the Interior shall have the right to place an Inspector on the work for the

purpose of seeing that the work of construction of the dams and other works is carried out in accordance with the approved plans and the proposed agreement; the salary of such Inspector to be paid as hereinbefore provided.

(e.) The Company shall after the completion of the dams maintain and operate the same to the satisfaction of the Minister of the Interior, who shall have the right, at the expense of the Company, to have the same inspected as the Minister may require by an officer appointed by the Minister.

(f.) The Company shall furnish and keep in force security approved by the Minister of the Interior for the payment by it of all damage that may at any time be occasioned by the construction or operation of the dams or works, or by any breaking of or other injury to said dams or works after their construction, and the said security shall also be held to cover any ascertained damages to lands on Chilliwack River by reason of the normal flow of the water being diverted from said stream.

9. The Company's application to purchase land for its works.

The Minister of the Interior to reserve in the records of the Department of the Interior from sale or other disposition the lands described in Schedule hereto attached marked "B," and to be authorised to convey, under conditions hereafter fully set out, to the said Vancouver Power Company from out of the said lands the following:—

(a.) Land necessary for site of temporary and permanent dams at the outlet of Chilliwack Lake, not exceeding 80 acres.

(b.) Land necessary for tunnel portals for the tunnel to carry the waters from Chilliwack Lake, not exceeding 80 acres in all.

(c.) Land necessary for diversion dam on the Chilliwack River, not exceeding 40 acres.

(d.) Land necessary for right-of-way 400 feet wide for the flume or ditch to carry the waters to be diverted from the Chilliwack River and extending from lands to be granted for the said diversion dam on the Chilliwack River to the land to be granted for the tunnel portal.

(e.) Land necessary for the right-of-way 400 feet wide for the tunnel to carry the waters to be diverted from the said Chilliwack River and extending from the land to be granted for the portal at the upper end to the land to be granted for the portal at the lower end.

(f.) Land necessary for the right-of-way 400 feet wide for the steel outlet-pipes connecting the tunnel to carry the waters to be diverted from the Chilliwack River with power-house and extending from the land to be granted for the lower portal of the said tunnel to the land to be granted for the power-house site in connection with Jones Lake application.

10. The Company's application for land for flooding purposes around that portion of Chilliwack Lake within the Railway Belt.

The Minister to reserve in the records of the Department of the Interior from sale or other disposition the lands described in Schedule hereto attached marked "C," and to be authorised to issue a lease in the name of the Company for such portions of the said lands—estimated at a total of 2,679 acres around Chilliwack Lake—as are found on actual survey by a Dominion Land Surveyor, employed by the Company and under instructions from the Department of the Interior, to be below contour lines 50 feet above the normal level of the said lake; said lease to provide for an annual rental, payable each year in advance, of 25 cents per acre, and to contain a proviso that the lands are not to be used for any other purpose than for and in connection with the water-power development by the Company, and said lease to be issued only after conveyance to the Company of the land for its other works as herein provided for.

11. The Company's application for roads.

The Company to be allowed to lay out and survey through lands the property of the Crown in the right of the Dominion, by a Dominion Land Surveyor, land necessary for a roadway along the Chilliwack River to Chilliwack Lake to give

access to any of the proposed works; and the Company shall not be called upon to make any payment for such land to the Government, but shall survey the said roads within one year of the date of this Order in Council, and upon approval of the surveys by the Surveyor-General, cause the land to be dedicated to the public for use for roadway purposes.

12. The continuous prosecution to successful completion of the proposed undertakings.

The Company to proceed with diligence with the construction of the works as soon as practicable after approval of its plans and specifications by the Minister of the Interior, and to spend in actual construction operations within one year from the date of approval of said plans and specifications a sum of not less than \$25,000, failing which the reserve on all the lands applied for may be withdrawn, and if such withdrawal of reserve takes place all claim by the Company on any of the said lands shall cease. The Company to complete all the works in connection with the Chilliwack Lake development within ten years of the said date of approval of the plans and specifications; and (a) should the Company not file plans and specifications for approval within one year of the date of this Order in Council, or (b) should the Company not spend in actual construction operations within one year from the date of approval of said plans and specifications a sum of not less than \$25,000, or (c) should the Company not use due diligence in prosecuting the work to successful completion for the remainder of the period allowed, or (d) should the Company fail to complete the said works within the said ten years, he may call on the Company to show cause why he should not withdraw the reserve on all the lands applied for, and why he shall not declare the Company to have forfeited all claim on any of said lands; but if the Company shall show to the satisfaction of the Minister of the Interior that it has spent not less than a half of a million dollars on the Chilliwack Lake development in each year subsequent to the 1st (first) year after the approval of the plans and specifications, then no action shall be taken by the Minister towards the withdrawal of the reserve on any of the lands till the expiration of the ten-year period allowed for completion.

13. The conditions to be fulfilled before conveyance to the Company of any of the lands applied for:—

(a.) Completion of all the works connected with the development of the water-power from Chilliwack Lake to the satisfaction of the Minister of the Interior in accordance with the terms of this Order in Council, as hereinbefore provided for.

(b.) Payment by the Company into the Department of the Interior of the required amount at the rate of \$10 per acre.

(c.) Patents to the Company to contain a proviso that the lands are not to be used for any other purpose than for and in connection with the water-power development of the Company.

(d.) The Company to file in the Department of the Interior plans of survey by a Dominion Land Surveyor approved by the Surveyor-General showing the lands required.

(e.) The Company to procure and file in the Department of the Interior unconditional release of claim of any person in occupation of any of the lands at the date of this Order in Council.

14. The approval of the Company's undertakings and authority to proceed with construction.

When the Company's plans and specifications have been completed and approved by the Minister of the Interior as hereinbefore provided for, the Minister of the Interior to be authorised to give the Company permission to proceed with its undertakings.

The Minister further recommends that upon the said agreement having been prepared and executed by the Company, he be authorised to sign and execute it as representing the Government of Canada.

The Committee submit the same for approval.

RODOLPHE BOUDREAU,

Clerk of the Privy Council.

"A"

VANCOUVER POWER COMPANY, LIMITED,

Vancouver, B. C., 9th May, 1910.

Honourable Frank Oliver,
Minister of the Interior,
Ottawa.

SIR,—I have the honour, on behalf of the Vancouver Power Company, further referring to our application dated September 8th, 1909, to respectfully solicit your approval of our proposed undertaking in the matter of power development from Chilliwack Lake, District of Yale, Province of British Columbia.

Chilliwack Lake lies in the extreme southwestern corner of the District of Yale, the lower end being close to the international boundary. The waters of the lake supply more than half the flow in Chilliwack River, which river is for many miles torrential in character, but in the lower reaches the grade flattens and the waters spread over the rich low-lying areas in Chilliwack and Sumas Municipalities, creating the chief obstacle to their successful reclamation. Any undertaking, therefore, which will result in the diversion of a considerable portion of the volume of water in Chilliwack River will bring the reclamation of these areas within practicable bounds. Under present conditions, the enormous cost of controlling and disposing of the waters of Chilliwack River places reclamation out of the question. Our Consulting Engineers estimate that 50 per cent. of the normal flowage will be diverted under the plan of development proposed, while the controlling dam which will be erected at the foot of the lake will regulate the lake discharge and tend to further reduce freshet volume. Consequently, the public interests will be greatly benefited by the carrying-out of the proposed undertaking.

The elevation of Chilliwack Lake is 2,080 feet above sea-level, and its area is about 2,600 acres. The extent of the drainage basin has not been definitely ascertained, as a portion of it extends into United States territory, and the country is so mountainous and rugged as to make it very difficult of access.

Water Required.—The quantity of water which we applied for is 500 cubic feet of water per second. This under an effective head of 1,800 feet will deliver 80,000 continuous horse-power on the wheel-shaft.

Plan of Development.—It is proposed at first to construct a rock-filled timber-crib dam at the outlet of Chilliwack Lake of sufficient height to raise the level of the lake 20 or more feet. The dam will be provided with a spillway for the passage of flood waters, and gates and valves for control and discharge of stored water. This structure will provide for sufficient storage to meet all water requirements until the power demand is so increased as to demand the full output of the ultimate development, when it will be replaced by a dam 50 feet in height.

About half a mile down-stream from the storage dam, a lower dam will be constructed to divert the water out of the stream-bed into a flume or ditch. This dam will also be provided with a spillway.

From the diverting dam a flume or ditch will be constructed on the north side of the river for a distance of 10½ miles to Ford Creek.

Before the level of the water in the lake is raised by means of the dam, a tunnel commencing at the end of the flume into Ford Creek Canyon will be driven through the mountains to the valley of the Fraser River. The tunnel will be 14 by 16 feet and 5¼ miles in length.

From the outlet of the tunnel steel pressure-pipes will be laid to the power-house erected in connection with the Jones Lake development on Section 15, Township 3, Range 28.

The initial installation will consist of three 10,000 horse-power water-wheels. Later additional power units will be added as required until the maximum development is reached.

Land Required.—The lands required for this undertaking are shown on the accompanying map, as follows:—

Around Chilliwack Lake.....	2,679	acres.
Flume right-of-way, 400 ft. wide...	522	"
Tunnel " " " " ...	245	"
Pipe-line " " " " ...	51	"
	3,497	"

The flooded area is assumed to be 2,377 acres, but as required by the regulations of the Department all legal subdivisions are included intact. The actual area required around the lake will, therefore, be considerably less than the above figures. Provincial lands at the lower end of the lake are not included in this application.

There are no Crown-granted lands in the territory affected by this undertaking, nor are there any pre-emption applications from intending settlers.

Around Chilliwack Lake there is little or no timber, but on the mountain slopes bordering the river there are some fine bodies of timber, which are held under licence. The flume right-of-way will not affect these holdings in an important degree.

Cost of Undertaking.—The total estimated cost of the Chilliwack Lake development is \$7,148,400 plus such charge as may be made for the lands conveyed.

Further Details.—For your further information I am enclosing herewith the report of our Consulting Engineers, Messrs. Sanderson & Porter, New York, which gives a full general outline of the plan of development, details of cost, and much other valuable matter.

Provincial Records.—The Vancouver Power Company holds three records from the Provincial Government of British Columbia covering 40,000 miner's inches of water out of Chilliwack. These records are numbered 45, 46, and 47 respectively, and were issued January 17th, 1908.

General Requirements.—Inasmuch as not less than six years, under the most favourable conditions, will be required to complete this development, the Company is very anxious to make an immediate commencement of work, and to permit of this, and so enable us to build roads and trails, establish camps, mills, and transportation facilities during the present summer, your favourable action on the following matters is respectfully requested:—

- (1.) Approval of undertaking.
- (2.) Grant of licence to take from Chilliwack Lake 500 cubic feet of water per second.
- (3.) Permission to erect a temporary dam at the foot of the lake 25 feet in height, and ultimately to replace this with a dam 50 feet in height.
- (4.) Authority to erect a diversion dam on Chilliwack River, and to divert the aforementioned volume of water from the river by flume and tunnel to the power-house situated on Section 15, Township 3, Range 28, as shown on plan herewith.
- (5.) Authority to flood the area surrounding the lake as shown on plan herewith, and lease of said flooded areas.
- (6.) Permission to purchase a right-of-way for tunnel and flume 400 feet in width from the diversion dam on Chilliwack River to said Section 15.
- (7.) Permission to purchase such lands as may be necessary for dam-sites and tunnel portals.
- (8.) Authority by Order in Council, in the absence of legislation bearing on the subject, to proceed with the undertaking at once.
- Rentals and Conditions.*—The Company agrees:
- (1.) To pay the Government such rate for water licensed as the regulations of your Department may require.
- (2.) To pay such price for tunnel and flume right-of-way, tunnel portals, and dam-sites as you may fix.
- (3.) To pay such rental per acre for the flooded areas as you may fix.
- (4.) To compensate the timber-licence holders for such portion of their limits as may be flooded by raising the level of the lake, and also for such timber as may be contained in the tunnel and flume right-of-way.
- (5.) To reimburse your Department any cost which it may be obliged to incur in investigating

these or any other claims with respect to the proposed undertaking.

(6.) To submit for your approval before the work of construction is begun the plans of the proposed dam, and to compensate the Government for any engineering or other costs it may incur in investigating the suitability and stability of the plans submitted.

(7.) To pay the royalty on all merchantable timber which may be removed or used by the Company in connection with its work.

(8.) To faithfully perform all conditions and regulations which you may consider necessary and proper to impose.

Conclusion.—The Chilliwack Lake development is one of the largest and most costly ever undertaken on this continent, but we consider it justified by the present and prospective rapid growth of our electric railway system, and industrial conditions generally in the lower mainland districts. The most serious drawback, however, to the undertaking is the length of time required in construction—namely, six years. One year of this will be required to build roads, organise transportation, and assemble construction equipment. For this reason, and in view of the fact that we fully expect to be urgently in need of additional power by 1916, it is of first importance that we be able to make a commencement this season. We therefore most respectfully solicit your early and favourable action herein.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Saturday, the 21st day of May, 1910.

PRESENT:

HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL.

THE Minister of the Interior, under date the 13th May, 1910, refers to an Order in Council of the 21st May, 1910, referring to two applications by the Vancouver Power Company in connection with hydraulic undertakings in the Railway Belt of British Columbia, proposed to be undertaken by it—the one in connection with Jones Lake, which lies wholly within the said Railway Belt, and the other in connection with Chilliwack Lake, which lies partly within and partly outside the said Railway Belt. Copy of the Company's application in respect of Jones Lake is hereto attached marked "A."

The Minister observes that the Company, in its said application in respect of Jones Lake, asks, in addition to its application for the necessary lands and approval of its proposed works and authority to proceed with construction of the same, all of which matters are dealt with in the said Order in Council, that—

- 1. Licence be granted to take from the waters of Jones Lake 200 cubic feet per second.
- 2. Authority be given to divert the volume of water as above stated from the said lake by tunnels and flumes as described in the said Order in Council.
- 3. Authority be given to flood the areas surrounding Jones Lake to the extent that the proposed permanent dam will raise the waters of the said lake.

The Minister further observes that the Company has already applied, under date March 11th, 1910, for a licence to take from the waters of Jones Lake the amount of water stated in its application, viz.: 200 cubic feet per second, and is the prior applicant.

The Minister states that he sees no objection to the application of the Company in respect of the matters above referred to being granted under proper control as to the rental to be charged for the use of the water and the rates to be charged to consumers of the power, so soon as the authority of Parliament is given vesting in the Governor-General in Council the authority to administer undisposed-of waters in the Railway Belt for power purposes, and subject to the fulfilment of all the conditions of the agreement provided for in the above-mentioned Order in Council relating to the lands necessary for the development in connection with Jones Lake.

The Minister, therefore, recommends that he be authorised to have prepared an agreement to be entered into between the Minister of the Interior, as representing the Government, and the Company, and which shall contain provisions covering the Company's application for licence to take and divert 200 cubic feet per second of the waters of Jones Lake and to flood the areas surrounding Jones Lake to the extent that the proposed permanent dam will raise the waters of the said lake.

The Minister of the Interior to agree, on behalf of the Government of Canada, that so soon as the authority of Parliament is given vesting in the Governor-General in Council the authority to administer undisposed-of waters in the Railway Belt for power purposes, but subject to the fulfilment of all the conditions of the agreement provided for in the Order in Council above referred to relating to the land necessary for the development in connection with the Jones Lake, he shall cause to be issued to the Vancouver Power Company a licence to divert and use 200 cubic feet per second of the waters of Jones Lake; such licence to be issued under regulations similar to those now in force governing the administration of water-power in Manitoba, Saskatchewan, Alberta, and the North-West Territories; and in issuing this licence for the use of water to the said Company, such licence shall conform as nearly as may be to clauses 1, 2, 3, 5, 6, 7, 8, 9, 10, and 11 of the said regulations, except only that portion of subsection "f" of said section 8 which relates to the return to the stream or other source of water of the full amount of water diverted.

The Minister further recommends that upon the said agreement having been prepared and executed by the Company, he be authorised to sign and execute it as representing the Government of Canada.

The Committee submit the same for approval.

RODOLPHE BOUDREAU,
Clerk of the Privy Council.

VANCOUVER POWER COMPANY, LIMITED.
Vancouver, B. C., May 9th, 1910.

Honourable FRANK OLIVER,
Minister of the Interior,
Ottawa.
Jones Lake Development.

SIR.—I have the honour, on behalf of the Vancouver Power Company, Limited, further referring to our application to you dated March 11th, 1910, in which we applied for two hundred (200) cubic feet per second of water out of Jones Lake, District of Yale, Province of British Columbia, to respectfully submit the following:—

Vancouver Power Company, Limited.—The Company is one of the subsidiaries of the British Columbia Electric Railway Co., Ltd., and was incorporated January 25th, 1898, pursuant to Part IV. of the "Water Clauses Consolidation Act, 1897," of the Statutes of British Columbia. The objects for which the Company was established were (inter alia) the acquisition of water for hydro-electric development, the generation of electricity for light, heat, and power purposes, and the construction and operation of electric railways, etc. The Company owns and operates the Coquitlam hydro-electric undertaking, and furnishes the British Columbia Electric Railway Company with all the electric energy required for operating its railway, lighting, and power system on the mainland of British Columbia. The Company also owns the railway, light, and power systems in North Vancouver, City and District, and is at present constructing an electric railway sixty-five miles in length from the City of New Westminster easterly through the Fraser Valley to the City of Chilliwack. It has also in contemplation the construction of other lines which will materially assist in promoting the development and prosperity of the lower mainland region of the Province, but cannot actively prosecute these new enterprises until assured of a further power-supply.

The capital of the Company is \$2,500,000, fully paid, but it has expended to date over \$5,000,000

on its hydro-electric development and railway enterprises.

Jones Lake.—The lake is situated in a valley high up in a spur of the Cheam Mountains east and north of the Town of Chilliwack, and about seven miles east of Agassiz, a station on the Canadian Pacific Railway. The lake lies at a level of about 1,950 feet above sea-level, its surface area is 1,263 acres, and its drainage area is approximately forty square miles. There are no fish in the lake, and there is no settlement in the locality owing to the rough and mountainous conditions thereabouts. No Crown lands have been alienated in the district affected by the proposed undertaking, but application has been filed for one or two small areas adjoining the Fraser River in the section on which it is proposed to erect the generating plant and its accessories. Several timber licences have been issued on lands bordering the lake.

Plan of Development.—It is proposed to construct at first a rock-filled timber-crib dam at the outlet of the lake of sufficient height to raise the lake-level 20 feet, and at a later date to construct a 50-foot dam of permanent type.

Before the level of the water in the lake is raised by means of the dam, a tunnel will be driven from the most westerly point on the shore-line through the mountains to their western slope in the valley of the Fraser, a distance of 10,200 feet, and from the outlet of the tunnel to the power-house located on the bank of the Fraser River the water will be conveyed by pressure-pipes, 6,000 feet in length.

To begin with, it is proposed to utilise 100 cubic feet per second, which under an effective head or fall of 1,800 feet will develop 16,300 continuous horse-power on the wheel-shaft, and give a peak load of 27,200 horse-power. There will be three 10,000 horse-power maximum output water-wheels of the impulse type, and the power-house will be constructed of concrete and fire-proof throughout.

For your further information I am enclosing herewith the report of our Consulting Engineers, Messrs. Sanderson & Porter, New York, on the Jones Lake proposition. This report gives a full general outline of the plan of development.

Lands Required.—The land required for this undertaking is shown on the accompanying map, and is as follows:—

Around Jones Lake.....	3,057 acres.
Tunnel right-of-way, 400 ft. wide..	94 "
Pipe-line " " " "	58 "
Power-house site.....	446 "
Total.....	3,655 "

These areas have been taken from map measurements as the Government surveys have not been completed in this district. Probably somewhat more land is applied for for power-house purposes than is absolutely necessary, but on account of the importance of the undertaking and the magnitude of the expenditure involved, which, with the Chilliwack Lake development, will reach a total of over \$10,000,000, it is thought best to secure ample room for the homes of the large staff of employees which will eventually be gathered there, as well as for the many buildings, shops, etc., which are accessory to the main plant.

The total area of land applied for surrounding the lake—namely, 3,657 acres—is more than actually required, but following the regulations laid down by the Department the whole of each subdivision touched is included. The actual flooded area when the 50-foot dam is built will be approximately 1,010 acres.

Cost of Undertaking.—The total estimated cost of the Jones Lake development is \$2,206,625 plus whatever charge may be made for the land conveyed. Details of cost will be found in the report of our Consulting Engineers, a copy of which is submitted herewith.

Requirements.—In order to be able to proceed at once with the work and complete the development in time to supply the rapidly growing needs of the territory which the Company serves, your favourable action on the following matters is respectfully requested:—

- (1.) Approval of the undertaking.
- (2.) Grant of licence to take from Jones Lake 200 cubic feet of water per second.
- (3.) Permission to erect a dam at the foot of the lake 25 feet in height at once, and ultimately to replace this with a dam 50 feet in height.
- (4.) Authority to divert the aforementioned volume of water from the lake by tunnel and flume to the power-house situated on Section 15, Township 3, Range 28, as shown on plans herewith.
- (5.) Authority to flood the area surrounding the lake as shown on plan herewith, and lease of said flooded areas.
- (6.) Permission to purchase a right-of-way 400 feet in width for tunnel and flume from the tunnel portal on the lake to said Section 15.
- (7.) Permission to purchase such portion of said Section 15 as may be necessary for power-house location and other purposes of the undertaking.
- (8.) Permission to purchase such area of land as may be required for dam-site and tunnel portals.
- (9.) Authority by Order in Council, in the absence of legislation bearing on the subject, to proceed with the undertaking at once.

Rentals and Conditions.—The Company agrees:

- (1.) To pay the Government such rate for water licensed as the regulations of your Department may require.
- (2.) To pay such price for tunnel and flume right-of-way and power-house location as you may fix.
- (3.) To pay such rental per acre for the flooded areas as you may fix.
- (4.) To compensate the timber-licence holders for such portion of their limits as may be flooded by raising the level of the lake, and also for such other timber as may be contained in the tunnel and flume right-of-way.
- (5.) To compensate any squatters now occupying any portion of the lands required for the undertaking, and to reimburse your Department any cost which it may incur in investigating these or any other claims with respect to the proposed undertaking.
- (6.) To submit for your approval before the work of construction is begun the plans of the proposed dam, and to reimburse your Department for any engineering or other costs it may incur in investigating the suitability and stability of the plans submitted.
- (7.) To pay the royalty on all merchantable timber which may be removed or used by the Company in connection with its work.
- (8.) To faithfully perform all conditions and regulations which you may consider necessary and proper to impose.

Conclusion.—The time required to complete the Jones Lake development is estimated by our Consulting Engineers at not less than two years and a half, while owing to adverse conditions due to elevation, climate, absence of roads, etc., the work may extend over five years. It is expected that our present development at Coquitlam will be fully absorbed in about three years, consequently it will be necessary for the Company to make an early start and prosecute the work on this undertaking rapidly and continuously in order to complete it within the time required. We therefore most respectfully solicit your early and favourable action herein.

I have the honour to be,

Sir,

Your obedient servant,

(Signed) F. R. GLOVER,

Before any Petition, praying for leave to bring in a Private Bill for the erection of a Toll Bridge, is received by the House, the person or persons intending to petition for such Bill shall, upon giving the notice prescribed by Rule 59, also at the same time and in the same manner, give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and mentioning also whether they intend to erect a drawbridge or not, and the dimensions of the same.

61. All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the clauses of the General Acts relating to the details to be provided for by such Bills:—Special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof in which the General Act is proposed to be departed from. Bills which are not framed in accordance with this Rule shall be re-cast by the promoters and re-printed at their expense before any Committee passes upon the clauses.

65. All Private Bills shall be prepared by the parties applying for the same, and printed in Small Pica type, twenty-six ems by fifty ems, on good paper, in imperial octavo form, each page when folded measuring 10¼ inches by 7½ inches. There shall be a marginal number every fifth line of each page; the numbering of the lines is not to run on through the Bill, but the lines of each page are to be numbered separately. Two hundred copies of each Bill shall be deposited with the Clerk of the House immediately before the first reading. If amendments are made to any Bill during its progress before the Committee on Private Bills, or through the House, such Bill shall be reprinted by the promoters thereof.

By new Rule 65A, passed on the 2nd April, 1901, (see Journals, 1901, page 58), a model form of Railway Bill is adopted.

By 65B all Bills to incorporate or amend Bills incorporating railway companies are to be drawn in accordance with the Model Bill.

The provisions contained in any Bill which are not in accord with the Model Bill shall be inserted between brackets.

Any exceptional provisions that it may be proposed to insert in any such Bill shall be clearly specified in the notice of application for the same.

Under a new rule, see Journals 7th March, 1908, in the case of Bills to Incorporate Companies, in addition to the fee of \$300 mentioned in rule 57, fees calculated on the capital of the company are payable at the same time. Further particulars can be had on application to the undersigned.
